PIR SHUKARULLAH SHAH

SENIOR SOFTWARE ENGINEER

EXPERIENCE

2018 - Present

Gulf News (Dubai, UAE)
Snr. Mobile App Developer
I am currently working at Gulf News (The biggest selling English newspaper in the UAE). I started as a Full Stack Developer but now I am responsible for mobile app development only. I sometimes help our front-end (react.js) web team, when required.

2017 - 2018

Cubix.co (Karachi, Pakistan)
Snr. Software Engineer
I am assigned to Lead, manage, coach and mentor react-native team, ensure team members stay on task and help them if they face any issue / problem. Monitor all aspects of mobile applications being developed to ensure they met quality standards. Develop reusable components.

2015- 2017

Fetch Sky (Karachi, Pakistan)
Software Engineer
I enjoyed working at Fetch Sky for almost 2 years. Here I learnt React Native and polished other mobile development skills. I worked on mobile apps (Peekaboo Guru and Bogo Pakistan) as front-end developer. These apps are appreciated by local users and Peekaboo Guru has achieved trophies and appreciation certificates in different startup events locally and globally.

2014- 2015

Infobits (Karachi, Pakistan)
Software Engineer
I worked as a mobile app and game developer at Infobits. We at Infobits created several games in Unity and targeted audience were kids under 11 year of age. I was also assign to look after new game developer interns.

2013- 2014

Verge Systems (Hyderabad, Pakistan)
Jr. Software Engineer
I began my career as Junior Software Engineer at Verge Systems. Where I developed & maintained Android apps and HTML5 games and I was assign to look after new android interns.
